

Dear CAMM Supporters,

Zikomo! Thank you to all of you for your continued interest and support of the Central African Medical Mission (CAMM). So once again I say Zikomo! That is Thank you in the Malawi language of Chichewa.

I am so thankful for the amazing experience we had as the CAMM four person mini committee that recently returned from our field visit to the CAMM clinics in Malawi and Zambia. There are so many aspects that we were able to learn about, observe and participate in that, Lord willing, it will assist us to better serve the spiritual and medical needs of the patients that come to our clinics. God is so good and to sit and worship with these brothers and sisters in the faith was the definite shining moment of the trip. One day we will all worship together around the throne of the Lamb forever! Zikomo!!

The August 2018 Lutheran Mobile Clinic Malawi letter is on the reverse side.

I will be sharing more about our trip in the near future as well as updating the pill bottle needs and packaging changes to help the clinic staff more effectively. At the time of this letter we are still holding all pill bottle shipments and waiting to hear from the fields when they are ready for supplies. If you have any questions, please don't hesitate to contact me.

To God be the glory and praise for this wonderful privilege He allows us to serve Him thru with CAMM. Please keep all of the CAMM mission in your prayers.

In His Service,

Cheryl Valus
